NOTICE OF LOCATION AND DESIGN APPROVAL
PROJECT
STP00-0000-00(543),
Brooks County
P. I. NUMBER 0000543

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location approval is July 26, 2011

STP00-0000-00(543) is a 6.67 mile section of S.R. 133 located in Brooks County. The project begins at

C.R. 276/Troupville Road (Brooks County Mile Post 0.62) and extends to C.R. 10/Pauline Church Road (Brooks County Mile Post 7.29) where it ties to Project STP00-0000-00(544). Improvements consist of

widening the existing two-lane S.R. 133 to a four-lane roadway with turn lanes as needed. This project is located in Land District 12.

Project P.I. 0000543 proposes a 4-lane section with a 14' flush median from C.R. 276/Troupeville Road (where it ties into an existing 20' raised median typical section) to Ridgeland Road. At Ridgeland Road the rural shoulder transitions to an urban shoulder including curb and gutter and sidewalks, but maintains the same 14' flush median. This urban 14' flush median roadway typical section is maintained through the densely populated area which ends at Fellowship Lane. A 32' depressed median section is provided from Fellowship Lane to C.R. 10/Pauline Church Road. Improving S.R. 133 to a multi-lane facility with separate turning lanes will reduce turning conflicts from the through traffic and improve operations.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation:
