PROJECT NUMBER:
CSSTP-007-00(259)
P. I. NUMBER: 0007259

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: August 27, 2014.

The project would construct a new grade separated interchange at the intersection of Jimmy DeLoach Parkway and U.S. 80/SR17/SR 26 in unincorporated Chatham County. The project lies entirely within unincorporated Chatham County, Land District No. 1777.

The purpose of this project is to improve the operational efficiency of the intersection of Jimmy DeLoach Parkway and U.S. 80/SR17/SR 26. The proposed project length is 2.1 miles. Jimmy DeLoach Parkway would be grade separated over U.S. 80/SR 17/SR 26. The proposed interchange will replace the at-grade intersection, and the configuration will include a full diamond interchange with single-lane ramps in each quadrant. The proposed project would maintain 4 basic lanes along Jimmy DeLoach parkway with a depressed grassed median. A portion of Osteen Road will be reconstructed to intersect U.S. 80/SR 17/SR 26 west of the proposed interchange.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation:
