**TO**  Paul V. Mullins, P.E., Chief Engineer

**SUBJECT PROJECT CONCEPT REPORT**

These combined projects propose to improve 3 intersections in the Perimeter CID/DeKalb Area Central and add sidewalks at 2 locations. The projects are as follows:

1. Hammond Drive at Perimeter Mall Entrance  
P.I. No. 0004423; MSL-0004-00(423)
2. Ashford Dunwoody Road at Ravinia Drive  
P.I. No. 0004422; MSL-0004-00(422)
3. Ashford Dunwoody Road at Perimeter Center North  
P.I. No. 0004408; MSL-0004-00(408)
4. Perimeter Center North/Meadow Lane Sidewalks East of Ashford Dunwoody Road  
P.I. No. 0004829; MSL-0004-00(829)
5. Ashwoody Parkway Sidewalks West of Ashford Dunwoody Road  
P.I. No. 0004830; MSL-0004-00(830)

The Perimeter CID/DeKalb area has been undergoing growth through an increase of retail, office, and residential development. Currently the area lacks sidewalk connectivity and uniformity as well as adequate crosswalks. Many intersections are not ADA compliant. Additionally, the existing area conditions prohibit easy pedestrian access to transit systems and retail stores.

Construction is proposed as follows:

**Intersection Projects 1-3**

These projects consist of adding pedestrian facilities and upgrading the traffic signal equipment. ADA ramps and crosswalks will be installed around the intersection. The traffic signal control equipment will be upgraded to 2070 ATC. Each approach will be milled and overlaid to provide continuity of the new pavement markings.

MSL-0004-00(408),(422),(423),(829),(830) DeKalb  
April 22, 2004

**Sidewalk Projects 4-5**

These projects consist of adding sidewalks and ADA ramps. A 6' wide sidewalk with 2' grass strip will be added along each side of the intersections.

Environmental concerns include requiring a Categorical Exclusion be prepared; a public information open house has been held; time saving procedures are appropriate.

The estimated costs for these projects are:

**MSL-0004-00(408)**

	<u>PROPOSED</u>	<u>APPROVED</u>	<u>FUNDING</u>	<u>PROG DATE</u>
Construction (includes E&C and inflation)	\$491,000	\$531,000	41536	2005

**Need and Purpose:** The Perimeter CID/DeKalb area has been undergoing growth through an increase of retail, office, and residential development. This growth is expected to continue and even increase. Currently, the area lacks sidewalk connectivity and uniformity as well as adequate crosswalks. Many intersections are not ADA compliant. Additionally, the existing area conditions prohibit easy pedestrian access to transit systems and retail stores. The project intersections were chosen based on a need to improve vehicular and pedestrian facilities to provide safer pedestrian mobility in the Perimeter CID/DeKalb. The primary goal of this project is to improve traffic and pedestrian safety. The secondary goals are to create a friendlier environment for pedestrians and improve vehicular operations.

### **Description of Proposed Projects:**

1 Hammond Drive at Perimeter Mall Entrance

P.I.# 0004423 - Project # MSL-0004 - 00(423)

The project consists of adding pedestrian facilities and upgrading the traffic signal equipment. ADA ramps and crosswalks will be installed around the entire intersection. The traffic signal control equipment will be upgraded to the 2070 ATC. Mast arm poles that are consistent with the area's upgraded intersections will be installed. The communications backbone will be upgraded to fiber optics.

Each approach will be milled and overlaid to provide continuity of the new pavement markings. The project length will extend 1000' to the east on Hammond Drive in order to place communication lines.

2 Ashford Dunwoody Road at Ravinia Drive

P.I.# 0004422 - Project # MSL-0004 - 00(422)

The project consists of adding pedestrian facilities and upgrading the traffic signal equipment. Existing sidewalks will be extended in the radii of the southeast and southwest quadrants to provide pedestrian access to raised islands. The existing raised islands in the northwest and southwest quadrants will be increased in size to provide crosswalk alignment and ADA ramp installation. ADA ramps will be added to the islands and at sidewalk access. Crosswalks will be installed around the entire intersection. The existing median nose on the west side of the intersection will be pulled back to allow proper crosswalk installation. The traffic signal control equipment will be upgraded to the 2070 ATC and pedestrian signals will be installed within the islands. Mast arm poles that are consistent with the area's upgraded intersections will be installed. The communications backbone will be upgraded to fiber optics. Each approach will be milled and overlaid to provide continuity of the new pavement markings. The project will extend 550' to the south and 1600' to the north on Ashford Dunwoody to place communication lines.

3 Ashford Dunwoody Road at Perimeter Center North

P.I.# 0004408 - Project # MSL-0004 - 00(408)

The project consists of adding pedestrian facilities and upgrading the traffic signal equipment.

The existing sidewalk in the northwest quadrant in the radius will be re-aligned to provide pedestrian access to the existing raised island. The existing islands in the northeast and southeast quadrants will be increased in size to provide crosswalk alignment and ADA ramp installation. ADA ramps will be added to the islands and at sidewalk access. Crosswalks will be installed around the entire intersection. The existing median nose on the north side of the intersection will be pulled back to

allow proper crosswalk installation. The traffic signal control equipment will be upgraded to the 2070 ATC and pedestrian signals will be installed within the islands. Mast arm poles that are consistent with the areas upgraded intersections will be installed. The communications backbone will be upgraded to fiber optics. Each approach will be milled and overlaid to provide continuity of the new pavement markings. The project will extend 950' south and 1000' north on Ashford Dunwoody in order to place communication lines.

4 Perimeter Center N./Meadow Lane Sidewalks East of Ashford Dunwoody Road

P.I.# 0004829 - Project # MSL-0004 - 00(829)

This project consists of adding sidewalk and ADA ramps. A six-foot wide sidewalk with two-foot grass strip will be added on each side of Perimeter Center North and on the west side of Meadow Lane extending 1000' to the south. Length of sidewalk added: 3,200 linear feet. The length of the project roadway segment is 0.38 miles.

5 Ashwood Pkwy Sidewalks West of Ashford Dunwoody Road

P.I.# 0004830 - Project # MSL-0004 - 00(830)

This project consists of adding sidewalk and ADA ramps. A six-foot wide sidewalk with two-foot grass strip will be added along each side of Ashford Parkway between Ashford Dunwoody Road and the terminating cul-de-sac. Length of sidewalk added: 2,800 linear feet. The length of the project roadway segment is 0.25 miles.

**The following information is common to all projects:**

**Is the project located in a Non-attainment area?**  Yes  No

*These are non-capacity adding projects.*

**PDP Classification:** Major , or Minor

**Federal Oversight:** Full Oversight , Exempt , State Funded , or Other

**Functional Classification:** Urban Principal Arterial inside the Perimeter and Urban Minor Arterial outside the Perimeter

**U. S. Route Number(s):** N/A

**State Route Number(s):** N/A

**County Route Number(s):** 1764 (Ashford Dunwoody Road)

**Traffic (AADT):** Base Year: 2003 ADT on Ashford Dunwoody Road North of I-285 South of Hammond Dr is 69,900

Design Year: N/A [These are non-capacity adding projects.]

## **Existing Design Features:**

### **Intersection Projects 1-3:**

- Typical Section: A minimum section is four 12' lanes, two in either direction, divided 8' median, 24" concrete curb and gutter with 5' concrete sidewalk and some crosswalks. The section fluctuates from the minimum section to a 9 lane section which includes left turn lanes, 20' median mid-block, and 30" concrete curb and gutter.
- Posted Speed: 35 mph
- Right-of-Way width: varies from 95' to 140'
- Maximum grade: 0.35%
- Major structures: N/A
- Existing length of project roadway segment: Approximately 0.1 miles.

### **Sidewalk Projects 4 and 5:**

- Typical Section: A minimum section is two lanes, one either direction, divided 4' median, 24" concrete curb and gutter without sidewalks or ADA ramps. The section fluctuates from the minimum section to a 4 lane, two in each direction, 10'-15' medians, and 30" concrete curb and gutter.
- Posted Speed: 35 mph
- Right-of-Way width: varies from 80' to 100'
- Maximum grade: 0.35%
- Major structures: N/A

## **Proposed Design Features:**

### **Intersection Projects 1-3:**

- Typical Section: A minimum section is four 12' lanes, two in either direction, divided 8' median, 24" concrete curb and gutter. At each intersection, crosswalks, pedestrian signal heads and ADA ramps will be installed. The section fluctuates from the minimum section to a 9 lane section which includes left turn lanes, 20' median mid-block, and 30" concrete curb and gutter.
- Posted Speed: 35 mph
- Right-of-Way width: varies from 95' to 140'
- Maximum grade: 0.35%
- Major structures: N/A
- Proposed length of project roadway segment: Approximately 0.1 miles.

**Sidewalk Projects 4 and 5:**

- Typical Section: A minimum section is two lanes, one either direction, divided 4' median, 24" concrete curb and gutter with sidewalks and ADA ramps. The section fluctuates from the minimum section to a 4 lane, two in each direction, 10'-15' medians, and 30" concrete curb and gutter.
- Posted Speed: 35 mph
- Right-of-Way width: varies from 80' to 100'
- Maximum grade: 0.35%
- Major structures: N/A

**Right of Way**

- The project will be constructed in existing Right of Way where possible. Additional Right of Way may be required for sidewalk construction and/or placement of traffic signal poles.
- Easements: Temporary , Permanent , Utility , Other .
- Type of access control: Full , Partial , By Permit , Other .
- Number of parcels: 15
- Number of displacements: None expected
  - Business: 0
  - Residences: 0
  - Mobile homes: 0
  - Other: 0

**Structures:**

- Bridges – N/A
- Retaining walls: N/A

**Major intersections:** (See project description)

**Traffic control during construction:** Single lane closure for loop installation and curb work. Work hours restricted. No lane closure will take place between 5:00am to 9:00am and 4:00pm to 8:00pm, Monday through Friday.

**Design Exceptions to controlling criteria anticipated:**

	<u>UNDETERMINED</u>	<u>YES</u>	<u>NO</u>
HORIZONTAL ALIGNMENT:	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
ROADWAY WIDTH:	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
SHOULDER WIDTH:	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
VERTICAL GRADES:	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

BRIDGE STRUCTURAL CAPACITY:	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

**Design Variances:** None expected

**Environmental concerns:** None expected

**Level of environmental analysis:**

- Are Time Savings Procedures appropriate? Yes , No ,
- Categorical exclusion ,
- Environmental Assessment/Finding of No Significant Impact (FONSI) , or  
 Environmental Impact Statement (EIS) .

**Utility involvements:** Minor communications, power, or sanitary sewer conflicts possible. Coordinate with Georgia Power, Bellsouth, Atlanta Gas and Light, and Comcast if needed.

**Project responsibilities:**

- Design: URS performing design for DeKalb County
- Right of Way Acquisition: DeKalb County
- Relocation of Utilities: Affected utilities
- Letting to contract: DeKalb County
- Supervision of construction: DeKalb County
- Providing material pits: Contractor if needed
- Providing Detour: Contractor, if needed

### **Coordination**

- Initial Concept team meeting: *Meeting was held on December 3, 2003, minutes attached.*
- Concept meeting date and brief summary: *Concept meeting to be held with date and time to be determined*
- P. A. R. meetings, dates and results: *Not required*
- FEMA, USCG, and/or TVA: *Not required*
- Public involvement: *Public meeting was held on January 20, 2004*
- Local government comments: *Coordinate with DeKalb and Fulton counties*
- Other projects in the area: *See attached list of other projects in the area*
- Other coordination to date: *None*
- Railroad Coordination: *None*

### **Scheduling – Responsible Parties' Estimate**

- Time to complete the environmental process: 3 Months
- Time to complete preliminary construction plans: 3 Months
- Time to complete Right of Way plans: 3 Months
- Time to complete the Section 404 Permit: 0 Month
- Time to complete final construction plans: 2.5 Months
- Time to purchase Right of Way: 3 Months
- List other major items that will affect the project schedule: Possible utility conflicts

**Other alternates considered:** Various intersection and upgrade options were considered during the development of the DeKalb Intersection Master Plan created by URS for the DeKalb Perimeter CID. The proposed designs were selected as the preferred alternatives.

**Comments:** None

### **Attachments:**

P.I.# 0004830 - Project # MSL-0004 - 00(830)

Date of Location and Design Approval: MAY 6, 2004

This project is located in the Perimeter CID area along Ashford Dunwoody Road in DeKalb County. The project proposes to improve 3 intersections in the Perimeter CID/DeKalb area Central and add sidewalk only at two locations. Drawings of maps or plats of the proposed project as approved are on file and are available for inspection at the Georgia Department of Transportation.

Reuben Woods	GDOT- Utilities	(770) 986-1090
A.J. Smith	GDOT- OEL	(404) 699-4416
Taylor Wright	PBS&J/PCID	(770) 933-0280
Matt Mulry	PBS&J/PCID	(770) 933-0280
Zeina Nazer	URS	(678) 808-8854
Jim Huffstetler	URS	(678) 808-8810
Chuck Wilson	URS	(678) 808-8856

Meeting Commenced: 10:00 am.

**PCID Concept Report**

The meeting started with self-introduction. URS handed out copies of the draft concept report to GDOT and briefly described the PCID project to GDOT.

GDOT inquired about holding public meetings for these projects. PBS&J initially were planning to hold a focus group meeting. GDOT recommended that a Public Meeting be held. The request is being considered.

GDOT recommended breaking out the project into three separate concept reports according to GRTA grouping: PCID Central, PCID North, and PCID South.

GDOT needs location and design notice for Right-Of-Way for these projects.

GDOT recommended separating environmental reports into three. URS will break out the environmental documents into three if needed (the decision is not final yet).

GDOT showed concern about where medians are to be installed at intersection # 10, Ashford Dunwoody @ Ashford Center North. They requested Capacity Analysis for that intersection. GDOT requested Right-Of-Way plans and Phase II plans for reference.

## **PCID Schedule**

URS reviewed the revised project schedule of October 30<sup>th</sup>, 2003 with PBS&J and GDOT. URS informed GDOT that according to the schedule, the official concept team meeting should be held by January 16<sup>th</sup>, 2004. It's been approved to rename today's meeting to initial concept team meeting.

## **Next Steps**

URS will resubmit three concept reports to PBS&J for review and approval. Afterwards the official concept team meeting will be scheduled.

The final break out of the environmental documents is to be determined.

Meeting adjourned at 11:20 am.
