SUBJECT PROJECT CONCEPT REPORT

This project is the Riverdale Road improvements associated with Hartsfield-Jackson Airport Consolidated Rental Car Facilities (CONRAC) in Clayton County. In conjunction with the implementation of the Hartsfield-Jackson Development Program, existing rental car staging areas will be relocated to a new consolidated rental car facility on the west side of I-85. This relocation will result in modifications to the vehicular circulation patterns associated with rental car and shuttle bus operations. The CONRAC facility will be constructed on a 67.5 acre parcel of land located in College Park, across I-85 from Hartsfield-Jackson Airport and adjacent to both the Georgia International Convention Center (GICC) and Gateway Center complexes. It will be the largest facility of its kind in the world. Serving the fourth largest overall rental car market, with a fleet of almost 40,000 vehicles, CONRAC will co-locate every rental car company operating at Hartsfield-Jackson Airport into a single common-use facility. The CONRAC Final Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) committed to review the need for roadway mitigation measures for Riverdale Road in the vicinity of Airport Boulevard. The CONRAC project is currently under design with a target opening year of 2006 or 2007. This project is to mitigate short-term (5 year) impacts along Riverdale Road. Long term CONRAC impacts on Riverdale Road will be addressed in the ongoing I-85 corridor study.

The construction consists of adding right turn lanes at two intersections on Riverdale Road and traffic signal timing improvements at the three signalized intersections in the immediate vicinity of I-85. The first right turn lane will be located on the southbound approach along Airport Boulevard and the second right turn lane will be located on the westbound approach along Riverdale Road at the intersection with the I-85 northbound ramps.

The City of Atlanta is proposing to construct the recommended concept and fund 100% of all phases of the project including reimbursing the Department of Transportation for its review costs.

P.I. No. 0004952

Office: Traffic Safety & Design
Atlanta, Georgia
Date: December 31, 2004

PMA/c
From: Phillip M. Allen, State Traffic Safety and Design Engineer
To: Meg Pirkle, Assistant Director of Preconstruction
Subject: Project Concept Report Review

We have reviewed the above referenced concept report for the Riverdale Rd improvements associated with Hartsfield Jackson Airport Consolidated Rental Car Facilities (CONRAC) in Clayton County.

The Office of Traffic Safety and Design finds this report satisfactory for approval. This is under the understanding that the purpose of this project is to mitigate short term impacts until future improvements are made. Additionally, we recommend considering the following changes during the design process:

Adding short right turn lanes on airport Blvd. SB and Riverdale Rd WB (between the bridge and the NB ramp).
