**NOTICE OF LOCATION  
AND DESIGN APPROVAL  
CSSTP-0007-00(273)  
TIF COUNTY  
P. I. NUMBER 0007273**

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: January 14, 2014

The proposed project would improve County Road (CR) 299/Omega Road to State Route standards from State Route (SR) 35/US 319 to I-75 for a total distance of approximately 0.3 miles in Tift County. This section of roadway would be designated as a SR 35 Connector. The western end of the project realigns CR 299/Omega Road to tie in SR 35/US 319 at an angle closer to 90 degrees, with the new intersection midpoint located approximately 100 feet north of the ex-

**Miscellaneous Notices**

299/Omega Road due to the designation of CR 299/Omega Road as a SR 35 Connector. The I-75 southbound single lane exit ramp to CR 299/Omega Road would be modified to a left and right turn lane at the intersection and a median barrier would be added to separate the entrance and exit ramps.

The proposed CR 299/Omega Road typical section would consist of two 12-foot travel lanes with 10-foot and 12-foot urban shoulders with sidewalk on the north side only within 100 feet to 120 feet of right-of-way. The existing and proposed speed limit would be 45 miles per hour. The existing intersection is unsignalized and would remain unsignalized with a stop condition on CR 299/Omega Road. This project is located in Land District 6.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation:

**NOTICE OF OPPORTUNITY FOR A PUBLIC HEARING PRIVATE ENTERPRISE COORDINATION RURAL PUBLIC TRANSPORTATION PROGRAM**

Tift County Board of Commissioners is applying for funding assistance under Title 49 U.S.C. Section 5311 of the Federal Transit Act pertaining to rural and small urban areas.

Tift County will offer general public transportation to all citizens of Tift County for any worthwhile purpose, including but not limited to shopping, medical treatment, social services and other purposes.

Tift County solicits private sector input and participation to that private for-profit transportation operators have a timely opportunity to participate in the development of this program.

Tift County also solicits comments and concerns from the general population on local public transportation services.

Tift County also solicits comments and concerns from the general population and representatives to assure issues relating to the design addressed in the service proposed during the process.

Interested parties are invited to request that a public hearing be held to discuss the service being offered or development application.

Written comments, requests for a public hearing and/or written notice of intent by private for-profit transportation operators to provide or participate in any or all of the above services should be submitted no later than fifteen (15) days from the date of this publication to:

Grady Thompson, Chairman Tift County Board of Commissioners P.O. Box 826 Tifton, GA 31793

If no response is received within the allowed fifteen (15) day period, the Department of Transportation will proceed with the application.

### NOTICE OF LOCATION AND DESIGN APPROVAL CSSTP-0007-00(273) TIFT COUNTY P. I. NUMBER 0007273

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: January 14, 2014.

The proposed project would improve County Road (CR) 299/Omega Road to State Route standards from State Route (SR) 35/US 319 to I-75 for a total distance of approximately 0.3 miles in Tift County. This section of roadway would be designated as a SR 35 Connector. The western end of the project realigns CR 299/Omega Road to tie in SR 35/US 319 at an angle closer to 90 degrees, with the new intersection midpoint located approximately 180 feet north of the existing intersection midpoint. The project also includes modifying several signs along I-75 southbound and I-75 northbound leading up to exits for US 82/SR 520/7th Street and CR 299/Omega Road due to the designation of CR 299/Omega Road as a SR 35 Connector. The I-75 southbound single lane exit ramp to CR 299/Omega Road would be modified to a left and right turn lane at the intersection and a median barrier would be added to separate the entrance and exit ramps.

The proposed CR 299/Omega Road typical section would consist of two 12-foot travel lanes with 10-foot and 12-foot urban shoulders with sidewalk on the north side only within 100 feet to 120 feet of right-of-way. The existing and proposed speed limit would be 45 miles per hour. The existing intersection is unsignalized and would remain unsignalized with a stop condition on CR 299/Omega Road. This project is located in Land District 6.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation:

Michael Atkinson

Proposers are advised that this work must be completed and ready to occupy by January 22, 2015. A liquidated damages penalty of \$500.00 per day will be imposed if the completion of the project extends beyond that date.

No proposals may be withdrawn for a period of sixty (60) days after the scheduled time for receiving the proposals. Proposals must be accompanied by a proposal bid bond in an amount of not less than five (5) percent of the proposal. A Contract Performance Bond and Payment Bond equal to one hundred (100) percent of the contract price will be required of the successful proposer prior to start of construction.

The Owner reserves the right to reject any or all proposals, to waive informalities and to re-advertise.
