NOTICE OF LOCATION

AND DESIGN APPROVAL

Project Number:

CSSTP-0007-00 (414)

CAMDEN COUNTY

P. I. NUMBER: 0007414

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location approval is April 3, 2013.

Project CSSTP-0007-00 (414). PI N. 0007414 is the 5.85 mile widening of Colerain Road in Camden County, Georgia. The proposed project located in Congressional District No. 1 is located approximately 72.7 percent within the city limits of Kingsland, Georgia and 22.5 percent within the city limits of St. Marys, Georgia. The proposed project is located in Georgia Militia Districts 29 and 1606.

The proposed project would widen and improve the existing two-lane Colerain Road to a four-lane divided roadway with 20-foot raised median and auxiliary lanes at major intersections. The improved section of Colerain Road from 2,714 feet west of I-95 (M.P. 0.42) to Winding Road (M.P. 4.95) would have urban shoulders with curb and gutter and a 10-foot multi-use path on the north (left) side and a 5-foot sidewalk on the south (right) side of the proposed roadway. The improved section of Colerain Road from Winding Road (M.P. 4.95) to 1,546 feet east of Kings Bay Road (M.P. 6.27) would have 10-foot rural shoulders with 3-foot, 6-inch grass shoulders and 6-foot, 6-inch paved shoulders consisting of 4-foot bike lanes and 16-inch rumble strips in each direction.

The interchange at I-95 would remain a diamond interchange. The single lane southbound off-ramp would be widened to provide two 12-foot left turn lanes and one 12-foot right turn lane at the intersection approaches to Colerain Road. A new four span Colerain Road bridge

293 feet long by 96.92 feet wide would be constructed over I-95. The single lane northbound off-ramp would be widened to provide one 12-foot left turn lane and one 12-foot right turn lane at the intersection approaches to Colerain Road.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation.
