NOTICE OF LOCATION AND DESIGN APPROVAL

Project Number: CSHPP-0007-00(567)

County: Wayne

P. I. Number: 0007567

Notice is hereby given in compliance with Georgia Code 22-2-109(b) and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of the above project.

The date of location approval is: June 28, 2012

Project CSHPP-0007-00(567), P.I. Number 0007567 consists of two sections:

US 341/West Pine Street Deceleration Lane: This section consist of the construction of a 500-foot deceleration lane on US 341/West Pine Street into a 40-space parking lot for a public park about 700 feet southeast of McMillan Creek. Required right of way and construction easement will be required to construct this section.

Downtown Streetscapes: This section would rehabilitate downtown sidewalks and improve the streetscape. The section would improve the streetscape on both sides of South Macon Street and North Macon Street from West Plum Street to West Walnut Street and along the north side of SW Broad Street from West Plum Street to West Cherry Street. Construction would include: repair of existing sidewalks, replacement where necessary, the addition of decorative brick pavers and installation of street trees and furniture. The City intends to utilize design elements that contribute to the local identity of the community to create a transition into the historic downtown district. The new sidewalks will be designed and constructed to complement the historic architecture. Sidewalks in the downtown core area will be a minimum of ten feet wide from curb to building fa ade and meet ADA requirements. Intersections will be upgraded to enhance pedestrian facilities. Crosswalks will be included at all intersections. Trees will be used to increase the appeal of downtown, providing shade and softening the expanse of pavement and the other hardscape materials that tend to dominate the streetscape. Parking spaces within the project limits will be retained and reconfigured, if needed, to make them more efficient.

This project is located in Land Lots 2 to 5, 14 to 18, 21 to 25 and 27 and GMD 1255 in Land Districts 1 and 3 in Wayne County.

Drawings, maps or plots of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation:

Bryan Czech, Area Engineer

Georgia Department of Transportation

739 Barnard Street

Glennville, GA 31427
