

**NOTICE OF LOCATION AND DESIGN APPROVAL  
PROJECT NUMBER CSSTP-0007-00(838) AND  
FULTON COUNTY  
P. I. NUMBER 0007838**

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: ~~September 13, 2016~~.

The project begins at the intersection of Windward Parkway and SR 9, which is the city limits for Alpharetta and Milton, and ends at the Forsyth County Line. The project is located within the City of Milton in Fulton County within Land District 2.

The proposed project would widen SR 9 to a continuous four lane urban roadway (two lanes in each direction) separated by a raised median that varies in width but is typically 16 feet. Besides widening, the project consists of the reconfiguration of side roads, addition of pedestrian and bicycle facilities, traffic and operational improvements, and signal upgrades. The intersection of Bethany Bend will be re-aligned to correct the existing skew angle. Left and right turn lanes will be provided at all major intersections. The roadway is designed to meet 45 mph design criteria. The existing right of way varies from 80 to 100 feet. The proposed right of way will vary from 101 to 134 feet.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation:

Percy Combay
