**NOTICE OF LOCATION AND DESIGN APPROVAL**  
P.I. Number 0009872, Effingham County

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: **September 1, 2016**

The proposed project would consist of improvements to the intersection of SR 275 at CR 307/Rincon-Stillwell Rd/Long Bridge Road in Effingham County. In the project area, SR 275 is a two lane rural major collector with a posted speed limit of 45 mph and an Annual Average Daily Traffic (AADT) of 880 vehicles per day. CR 307/Rincon-Stillwell Road/Long Bridge Road is a two lane rural major collector with a posted speed limit of 55 mph and an AADT of 2,870 vehicles per day. Currently, the 4-legged intersection is stop controlled on the CR 307/Rincon-Stillwell Road/Long Bridge Rd approaches with no turn lanes in any direction. Improvements would be designed to improve operational efficiency at the intersection.

The proposed project will consist of two 12-foot lanes with 10' rural shoulders (6.5' paved) on SR 275 / Ebenezer Road and on CR 307 / Rincon-Stillwell Road / Long Bridge Road. A 150' diameter, single lane roundabout is proposed at the intersection of SR 275/Ebenezer Road and CR 307/Rincon-Stillwell Road/Long Bridge Road. The intersection is located approximately 3.3 miles north of Rincon, GA and 2.6 miles south of Stillwell, GA in Effingham County. The construction will be approximately 500' in each direction of the intersection. This project is located in G.M.D. #9.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation:
