M-7090 NOTICE OF LOCATION AND DESIGN APPROVAL P. I. No. 0010008, Cobb County Cobb County DOT Project Nos. CCID-1029 and CCID-1030 Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project. The date of location approval is April 30, 2012. This project consists of the widening and improvements to Cumberland Boulevard between Spring Road and Akers Mill Road. The project lies entirely within Cobb County, Land District 17, Land Lots 846, 847, 881, 882, 912, and 949. Cumberland Blvd is proposed to be widened from two lanes to three lanes in the westbound direction between Akers Mill Road and Cumberland Parkway. Additional left turn lane improvements will be made where Cumberland Boulevard intersects with Cumberland Parkway, the Cumberland Mall entrance, and Akers Mill Road. West of the I-285 bridge, Cumberland Boulevard will be restriped and resigned to better delineate which lanes become the left turn lanes for Spring Road and which lanes continue through the Spring Road intersection on Cumberland Boulevard. Minimal widening will be required to accommodate the through lane transition tapers. All roadway widening is proposed on the north side of Cumberland Boulevard. New sidewalk will be constructed along the northern side of the road within the project limits. The project will include installing streetscape features such as street trees and landscaping, street and pedestrian lighting, street furniture, pedestrian plazas, corner treatments, and stamped asphalt crosswalks along both sides of Cumberland Boulevard from Akers Mill Road to Spring Road.
