Russell McMurry, P.E., Commissioner  
Georgia Department of Transportation  
One Georgia Center  
600 West Peachtree Street, NW  
Atlanta, GA 30308

Dear Commissioner McMurry:

We have reviewed the request to use proprietary items on the Transportation Enhancement (TE) Project, PI# 0010704, located in the City of Marietta, Cobb County.

Insufficient information was provided to determine that a proprietary item is needed for decorative stamped asphalt for crosswalks. Typically, these items can be provided by multiple manufacturers in an array of colors, shapes, and sizes that would appear to be able to meet the aesthetic unity desired in this project. Please correct the information and resubmit your request.

FHWA finds that it is in the public interest to use the following items for the purposes of aesthetic and logistic synchronization:

Benches:

- Manufacturer: DuMor, Inc.
- Model: 119 Series Bench, 6'
- Finish: Polyester Powder Coating
- Color: Black

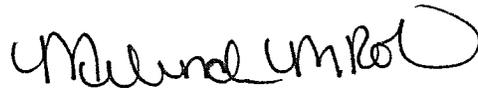

Trash Receptacle:

- Manufacturer: Canterbury International
- Model: 103
- Finish: Standard
- Color: Black

This public interest finding is only applicable for the benches, and trash receptacles listed above. Furthermore, this public interest finding is only applicable for use on PI# 0010704, in Cobb County. The City of Marietta is responsible for ensuring that these items comply with the Buy America Act.

If you have any questions, please contact Julio A. Nuñez at (404) 562-3638.

Sincerely,

A handwritten signature in black ink, appearing to read "Rodney N. Barry". The signature is fluid and cursive, with a large loop at the end.

 Rodney N. Barry, P.E.  
Division Administrator

Subject: Proprietary Items Usage  
PI # 0010704  
CS1143/Cemetery Street from SR360 to CS1387/West Atlanta Street  
City of Marietta, Cobb County

Mr. Barry:

Please review the attached request from the City of Marietta for the use of proprietary benches, a trash receptacle, and decorative stamped asphalt for crosswalks along CS1143/Cemetery Street from SR360 to CS1387/West Atlanta Street Transportation Enhancement Project, P.I. Number 0010704.

The City of Marietta has previously installed identical items within the city limits and intends to continue to utilize the requested products in future streetscape projects. In order to ensure aesthetic continuity within its downtown area, the City of Marietta respectfully requests approval to utilize the requested items.

The Department considers the use of the proposed proprietary items to be in compliance with 23 CFR 635.411 for aesthetic synchronization.

Should you have any questions or concerns, please contact Dave Peters at 404-631-1738 or Jeanne Kerney at 404-631-1982.

Sincerely,

  
for Brent Story, P.E.  
State Design Policy Engineer

RE: Use of Proprietary Items for  
CS 1143/Cemetery Street from SR 360 to CS 1387/West Atlanta Street, Cobb County  
PI: 0010704

Dear Ms. Kerney,

As per Federal Highway Administration regulation in 23 CFR 635.411(a) 2, proprietary materials, specifications, and processes can be used if their use is essential for synchronization with existing highway facilities. For the City of Marietta's Transportation Enhancement Project, PI# 0010704, the following proprietary items are proposed for use:

Trash Receptacles

Manufacturer: Canterbury International	Model: 103
Quantity in Project: 1	Finish: Standard
Total Estimated Cost for Trash Receptacles: \$2,000	Color: Black

Benches

Manufacturer: DuMor, Inc.	Model: 119 Series Bench, 6 Foot
Quantity in Project: 2	Finish: Polyester Powder Coating
Total Estimated Cost for Benches: \$4,400	Color: Black

Stamped Asphalt

Manufacturer: Traffic Calming USA	Model: Trafficprint
Quantity in Project: 530 SF	Finish: Herringbone
Total Estimated Cost for Stamped Asphalt: \$6,890	Color: Sand

The total estimated costs for materials listed above are based on recent construction bids on similar projects. These costs include materials, labor, tax, and freight.

The estimated total construction cost for the project is \$411,353. The cost of \$13,290 for proprietary items represents 3.23% of the estimated construction costs.

The City of Marietta has established the City of Marietta's Design Guidelines to create continuity of products and specifications throughout the City and to help effectively maintain these products. These guidelines were approved and in place prior to the start of the Transportation Enhancement project. The specific products designated by the City of Marietta's Design Guidelines are the ones that are being used

in the construction drawings. These products have been installed in previous City of Marietta projects in the following locations: Roswell Street Streetscapes – Cobb Parkway to Dodd Street; Roswell Street Streetscapes – Fairground Street to Haynes Street; and Powder Springs Streetscapes – Sandtown Road to Chestnut Hill Road. These products will also be used in all future streetscape enhancement projects in the City of Marietta.

All of these products were selected by the participating private citizens of City of Marietta, and each was approved by the City of Marietta. On the construction plans, we have exhibited the product information and contact information for each product's manufacturer. We also attached photographs of existing areas with the products in use.

I, Charlie Lanz, City Engineer, of the City of Marietta, do hereby certify that in accordance with the requirements of 23 CFR 635.411(a)(2), that these patented or proprietary items are essential for synchronization with existing highway facilities. The use of these products are essential for aesthetic synchronization to match the visual appearance of existing facilities previously installed in the city and for compatibility with the City of Marietta's Design Guidelines.

The City of Marietta respectfully requests that the use of these proprietary products be approved.

Sincerely,

Charlie Lanz  
City Engineer  
City of Marietta

Attachments to include:

- A. Photos of existing Trash Receptacles, Benches, and Stamped Asphalt
- B. Manufacturer details for each proprietary item
