**NOTICE OF LOCATION AND DESIGN APPROVAL**  
**COBB COUNTY DOT PROJECT NO. E4100**  
**P. I. 0012774**

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: **October 29, 2014**.

This project involves the reconstruction of the interchange at I-75 and Windy Hill Rd Cobb County, Georgia. This project is located within Land Lot 17.

The proposed project will construct a diverging diamond interchange at the existing partial cloverleaf interchange of Windy Hill Road at I-75 located in Cobb County, Georgia. The existing bridge across I-75 will be maintained in place. Windy Hill Road will be reconfigured to have six lanes (three in each direction) and a 14' median. Pedestrian traffic would be facilitated along the center median of the bridge. The project would also include the relocation of the intersection of Windy Hill Road at Circle 75 Parkway, and Windy Hill Road at Leland Drive. The southbound off- and on-ramps from I-75 will be reconstructed to a standard diamond configuration to accommodate the diverging diamond design. No work will take place on the interstate. Interstate North Parkway traffic heading northward to Windy Hill Road will be diverted to Interstate North Parkway (East). The intersection of Interstate North Parkway (West) and Interstate North Parkway (East) will be modified to accommodate the change in traffic flow. Project length is approximately 0.39 miles along Windy Hill Road.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Cobb County Department of Transportation:

James Hudgins  
Program Preconstruction Manager
