NOTICE OF LOCATION AND DESIGN APPROVAL
Project Number: STP-0013-01(063)

Gwinnett/Hall Counties P. I. NUMBER: 132950

Notice is hereby given in compliance with Georgia Code 22-2-109 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location approval is July 24, 2013.

The project consists of the widening of Buford Highway (SR 13), an urban minor arterial, from Sawnee Avenue in Gwinnett County to SR 347 in Hall County. The proposed typical section includes an urban four-lane divided highway (two 11-foot travel lanes in either direction) with a 20-foot raised grass median, auxiliary lanes at major intersections, 12-foot urban shoulders, curb and gutter, and five-foot sidewalks on the east side and eight-foot sidewalks on the west side. The existing right-of-way varies from approximately 80 to 100 feet. The proposed right-of-way would vary from 90 to 114 feet on Buford Highway (SR 13) and 84 to 105 feet on adjacent side streets. The total length of the project would be approximately 1.65 miles. The existing roadway currently consists of two lanes with a variable width, two-way left turn lane and right turn lanes at most major intersections.

This project is located

proposes to construct a 16-foot raised median along SR 13/Buford Highway for a distance of approximately 0.40 miles between Davenport Road and SR 120/Duluth Highway. The proposed median will include landscaping such as small caliper trees, shrubs, and seasonal plantings. The project will maintain two (2) travel lanes in each direction on Buford Highway.

The proposed project is located in Land Lot 293 of the 6th Land District, Gwinnett County.

In addition to construction of the 16-foot raised median, the project proposes to enhance the pedestrian facilities along the edge of Buford Highway by re-constructing crosswalks at all driveways and side-street entrances using enhanced cross-walk materials and re-sodding grassed areas adjacent to the curbs and sidewalks.

The changes in the existing roadway laneage are limited to conversion of the existing center two-way left-turn lane to a 16-foot raised median. There is no change proposed to the number of existing through lanes. The project will also maintain all existing turn lanes at the SR 120/Duluth Highway intersection. The project will maintain existing outside curbs for the majority of the project.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Duluth City Hall: City of Duluth Mr. James Riker
