TO Hal Rives, Commissioner

SUBJECT SR 215 AT HOUSE CREEK TRIBUTARY - PROJECT CONCEPT REPORT

This project is the replacement of a narrow and structurally deficient load limited bridge on SR 215 at a House Creek Tributary between Fitzgerald and Rochelle. The existing bridge is 23.8'x135' with timber piling, concrete caps and concrete deck and is temporarily shored. Approaches have 24' of pavement and 5' shoulders on 80' of right-of-way. Current and future traffic is 850 VPD (1992) and 1250 VPD (2012).

The proposed replacement structure will be a double-double 9'x8'x52' concrete bridge culvert on existing alignment. Approaches will be reconstructed to have 24' of pavement and 8' shoulders for a project length of 0.22 miles. Although the concept report includes an on-site detour; it is recommended that SR 215 be closed at the project site with thru-traffic being detoured via SR 90 and SR 233 with local traffic using the local road network. (See attached detour sketch map). The estimated cost of the project, excluding the on-site detour, is:

	PROPOSED	APPROVED	PROG. DATE
Constr(Inf1&E/C)	$224,000	$337,000	FY 90
Right-of-way	$ 1,500	No Est.	
Utilities	LGPA	LGPA	

I recommend that we approve this project concept report for implementation, to include local road detours. It is further recommended that this project be coordinated with project BRF-137-1(3) Wilcox County and let simultaneously. Time saving procedures are appropriate.

INTERDEPARTMENT CORRESPONDENCE

FILE BRF-137-1 (2) Wilcox County
P.I. No. 421670
Bridge Replacement over House Creek Tributary

OFFICE Atlanta, Georgia

DATE June 21, 1989

FROM Robert E. Humphrey, Project Review Engineer

TO G. C. Lewis, Director of Preconstruction

SUBJECT **PROJECT CONCEPT REPORT**

We have reviewed the attached Concept Report for this Minor project and have the following comment:

Consideration should be given to using State Routes 233 and 90 as a detour route rather than building an on-site detour.

We have received signed cover sheets from the following offices:

1. Bridge Design
2. Traffic and Safety
3. Environmental

This report is satisfactory for approval subject to the above comment.

The estimated costs of this project are as follows:

		Excl. on-site detour
Construction	~~$262,000~~	194,000
Inflation (5% per year)	~~13,100~~	9,700
E & C (10%)	~~27,510~~	20,400
Preliminary Engineering (5%)	~~13,755~~	10,200
Right of Way	1,500	
Utilities	LGPA (Anticipated)

SUBJECT **Project Concept Report Review**

We have reviewed the concept report on the above project for the proposed replacement of a narrow bridge structure on S.R. 215 at House Creek with a bridge culvert. We believe the replacement of this structurally and functionally deficient bridge will improve safety for the traveling public at this location. We, therefore, find this report satisfactory for approval.
