P.I. No.: 533205 **DATE:** April 22, 2008

FROM:  James B. Buchan, P.E., State Urban Design Engineer

TO: Genetha Rice-Singleton, Assistant Director of Preconstruction
Attn: Johnny Quarles

SUBJECT: Location and Design Approval

This project will improve the drainage capacity on CR302/ Montgomery Cross Road at Casey Canal in Savannah. The project involves replacing a bridge culvert on CR302/ Montgomery Cross Road at Casey Canal. Replacing the bridge culvert is needed to facilitate the discharge of storm water from Casey Canal. The project proposes to widen the existing westbound bridge over Casey Canal to replace the existing eastbound bridge culvert. The typical section of the widened bridge will be four 12-ft lanes, two in each direction, separated by a 20-ft raised median with 6-ft sidewalks on both sides of the bridge.

This project is classified as a minor project, and as stated in the Plan Development Process (PDP) the Request for Location and Design for minor projects should be submitted at the time of the Concept Report. However the Notice of Location and Design Approval included in the approved Concept Report was never dated and executed. The District Office has no record of the Location and Design Notice being advertised. Please provide this office with a Notice of Location and Design Approval with the approval date inserted and transmit the Notice to the District Office for publication and advertisement as specified in the PDP. The Concept Report was approved on December 31, 2002.

If you have any questions, please contact Albert Welch or Larry Smith at 404-656-5447.

NOTICE OF LOCATION AND DESIGN APPROVAL

BRST0-0219-01(001), Chatham County

P. I. No. 533205

Notice is hereby given in compliance with Georgia Code 22-2-109 that the Georgia Department of Transportation has approved the Location and Design of the above project.

Date of Location Design Approval: APRIL 30, 2008

This project is a drainage improvement project and involves replacing a bridge culvert on CR 302/Montgomery Cross Road at Casey Canal. Replacing the existing eastbound bridge culvert is needed to facilitate the discharge of storm water from Casey Canal. The existing westbound bridge will be widened to replace the existing eastbound bridge culvert. The typical section of the widened bridge will be four 12-ft lanes, two in each direction, separated by a 20-ft raised median with 6-ft sidewalks on both sides of the bridge. The project lies entirely within Chatham County in Georgia Military District 4.

Drawings or maps or plats of the proposed project, as approved, are on file and are available for public inspection at the Georgia Department of Transportation:

Troy Pittman, Area Engineer
Email: trpittman@dot.ga.gov
Georgia Department of Transportation
630 West Boundary Street
P.O. Box 1212
Savannah, Georgia 31402
(912) 651-2144

Any interested party may obtain a copy of the drawings or maps or plats or portions thereof by paying a nominal fee and requesting in writing to:

James B. Buchan, P.E.
State Urban Design Engineer
E-mail: bbuchan@dot.ga.gov
